

# Let the Sunshine In With *Greenhouse Windows & Mini-Solariums*

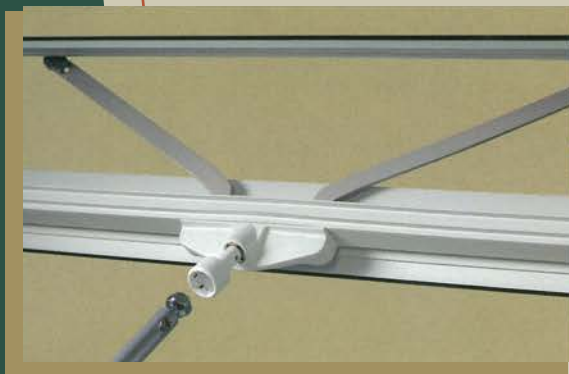

## *Light up Your Life*

At last, an economical way to expand your home's interior. Vinyl-Lite Greenhouse Windows and Mini-Solariums are designed to add an extra dimension to any room. The windows and mini-solariums project out from the room to capture the light and bathe the room with sunlight - a source for passive solar energy.

## *A Garden In your home*

Plants and flowers thrive in this greenhouse environment. Functional glass shelving can be adjusted for varying plant heights. Roof and side venting maximize air circulation. (Optional)

## *Engineered for Energy Efficiency*

Vinyl-Lite Greenhouse Windows and Mini-Solariums are engineered to be energy efficient. The fusion-welded frames, in combination with weather seals, double glazing, and an insulated base, will keep out the cold winter winds. In the summer, the top venting windows open wide to provide a cooling breeze.

## Easy to Install

Greenhouse windows and Mini-Solariums are easy to install. There's no mess, no fuss; they're custom made to fit right into your existing window frames.

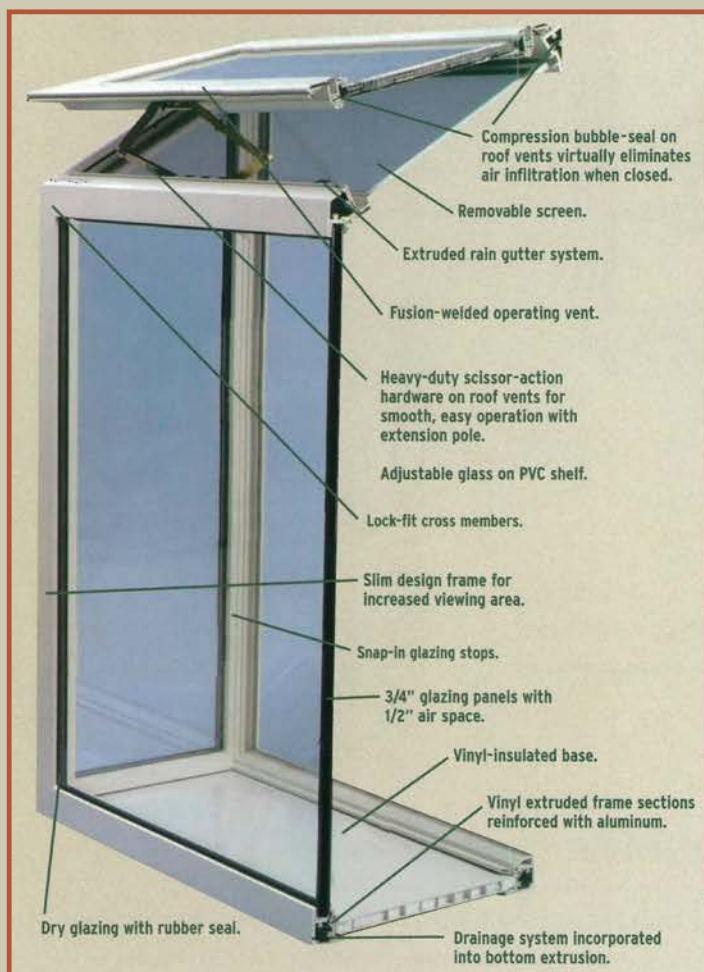

- Whether to replace an existing window, or to add space to your home, your Vinyl-Lite Window or Mini-Solarium will enhance the beauty and value of your home.

## Greenhouse Window & Mini-Solarium Features

- Full screen on roof vents
- Vinyl extruded frame sections reinforced aluminum
- Fusion-welded corners to eliminate air infiltration
- Energy-efficient low 'E' glass with argon/krypton blend.
- Adjustable glass shelves

Vinyl-Lite Solariums add an extra dimension to any room. Maximum projection 36". Tempered glass on roof panel.

## Design

The vinyl extruded frame sections are reinforced with aluminum for extra strength.

## Technology

The bottom frame members incorporate a drainage system to remove excess moisture. The vinyl base is insulated for energy efficiency.

## Quality

A compression bubble-seal in combination with a continuous hinge eliminates air infiltration when closed. The gutter system drains excess moisture.

## Colors that *never need painting*
